A FEW PRACTICAL HINTS TO OUR FARMERS.

There is no region in the United States where farming could be made as profitable as here in Eastern North Carolina. We have all the natural advantages, good soil, genial climate and cheap transportation. All we need is intelligent management. In a few words, we want a little science to bring into profitable requisition the great facilities nature has so abundantly supplied.

When we look around us and take note of the course adopted by our farmers for the past quarter of a century we are led to wonder that they made ends meet at all, and yet many of them made money. It is surprising that this should be so. With a soil peculiarly adapted for the growth of grain, hay and fruit, they have been depending almost entirely upon the North for them all. Devoting their whole attention to making Cotton and Corn, they have purchased the most of their eatables from the farmers of the North. In any other country such a policy would have been deemed ruinous, and it cannot be continued here with prosperous success.

We have taken frequent occasion to impress upon our farmers the importance, nay the necessity of a different and wiser course. They must cease depending altogether on Corn and Cotton; they must increase the variety of their products, and they must begin to practice a rotation of crops. They must learn to become independent of all other sections for their supplies—especially for what they eat.

Take the past season for instance. Had the farmers of the South, instead of devoting all their energies to raising Cotton, directed even one-third of the labor and expense to grain, this country would have been in a two-fold more healthy condition financially to-day. Instead of independence our farmers are dependent.

We repeat it, we must have all this changed. We must have more thought, more Brain in our agricultural operations. By intelligent management there is money in farming here. With deeper plowing, better cultivation, manuring and raising clover our soil can be made as productive as any on the globe. It is easily worked. Once brought up to a high state of cultivation it costs but little to keep it so. The intelligent Northern farmers who have settled among us are practically demonstrating this.

A LITTLE PLAIN TALK.

Carolina has been cursed with adventurers and unprincipled *scalawags* cannot be denied, and that too many of these managed to obtain position is a fact patent to everybody. We have deplored it, and, but for the fact that our education forbade it, we are not sure but at times we should have indulged in a little "cussing," for it was evident to us that the result must be to dishearten the honest masses, demoralize the organization and bring the party into disrepute. But for the *principles* of the party it would long ere this have gone "where the wood bine twineth." These, being sound and worthy the support of every patriotic citizen, alone have kept the organization in tact, notwithstanding the acts of some of its managers have damned *them* to everlasting infamy.

The time has now come in the history of the party in this State for a thorough reorganization. Men known to be corrupt must be made to understand that they will not be acknowledged as leaders. They must be compelled to take back seats, or, what would be better, go over to the Democracy where they legitimately belong. We have the material in this good Old North State out of which to build up an influential and invincible party, and wehave the votes, if properly brought out, to carry it by an overwhelming majority. Republicans of North Carolina! Shall this be done? Friends of law and order and peace, let us have your co-operation.

THE ATTACKS ON SENATOR POOL.

We have not considered it necessary to take any notice of the vile personal attacks made by the Ku-Klux Democracy on Hon. JOHN POOL, for we are satisfied that it will not be long before the batteries they are using in their impotent rage will recoil on themselves. They hate him, and well they may, for he has thwarted them in the past as he will do again. They hate him because he is the political enemy of every man who aids or sympathizes with the armed banditti that have cursed the South by their outrages upon the weak and defenseless who dare to exercise the rights of freemen. They hate him because he has dared to stand up for the flag of his country and announces boldly that he will aid the nation in carrying out its policy. In due time the Senator will be triumphantly vindicated, and then *some* of his cowardly traducers will call upon the mountains to hide them from the indignation of an honest public.

It sometimes happens that certain prominent politicians conclude that the Party to which they belong cannot succeed without their influence, and hence they arrogate the office of political dictators and speak of themselves as "We, the Party." Now so far as the Republican Party is concerned, it would be well for all to understand that it neither resides in Congress, the Senate or the White House, but that its home is in the hearts and convictions of *the people*. No one man, nay, no dozen men, however exalted their station, are absolutely necessary to its existence.

THE AMNESTY BILL.

The Amnesty Bill which has passed the House is very liberal in its provisions, and only stops short at general amnesty. The excluded class is very small, comprising: *First.*—Members of the Congress of the United States who withdrew therefrom and aided the rebellion. *Second*—Officers of the army or navy of the United States who, being above the age of twenty-one years, left the army or navy and aided in the rebellion. *Third*—Members of the State Conventions which adopted the pretended ordinances of Secession, or who voted for the adoption of such ordinances. Whether it will pass the Senate at this session we are not assured.

'But for the conduct of certain of the Democratic leaders in the South an amnesty bill would have passed long since. The Republican party has no desire for vengeance or revenge. It has been and is to-day anxious to cultivate feelings of unity and to lay down the bases for a lasting friendship with the whole country. It wants no more strife but a national unity—that unity which is necessary for the existence of a great nation. So far as is consistent with the national safety it would bury in oblivion every event of the past. Our prayer is, "let us have peace"—lasting, endless peace.

THE CONVENTION.

Our views on the Convention question are well known. In the first place, we feel that we ought to have a season of rest and quiet instead of another exciting campaign; in the second place, the temper of the people is not in a proper condition to meddle with the organic law; and in the third place, the call for the Convention is not proper—is in direct violation of the Constitution. The action of a Convention thus held would not be valid, and hence the excitement and expense would be in vain. An appeal to the proper tribunal would result in setting the entire proceedings aside.

In our judgement, if the revolutionists will persist in their unconstitutional course, they should be made to reap as they sow:—If we had *our* way every constitution respecting and law abiding citizen would refrain from having any thing to do with the election. And yet if it is deemed wisest and best to enter the canvas and defeat the Convention at the ballot box the NORTH CAROLINIAN will do its duty.

A SIGN OF THRIFT.

Col. Walter Clark, of Scotland Neck, who is a lawyer, has three farms; on each of these he has a manager, and to each of his overseers he has ordered The Reconstructed Farmer at his expense. The Colonel may be assured that while he is endeavoring to explain the reconstructed laws of the country to his clients, we will do our best, in a practical way, to acquaint his managers as we do all our readers with the absolute necessity of Agricultural reconstruction' by telling them that their brains must go ahead of their muscles, dictating the easiest and shortest way to do everything that is necessary to be done. They shall be advised to be watchful and attentive to the business of the farm, and by all means to be economical, for here lies the loss or gain—*Reconstructed Farmer*.

The Colonel is a wise man. As a further evidence of the fact we would add that he is also a patron of the NORTH CAROLINIAN. With the aid of two such excellent papers he cannot fail to succeed. The practical suggestions hinted at by the *Farmer* are the very lessons we have been teaching, enforcing them on the attention of the people with all the ability at our command. Brain *must* go ahead of muscle, and every operation on the farm as well as in every other trade or profession should be directed by intelligence.

LABOR RESPECTABLE.

How foolish it is for an intelligent man to despise labor. From the period when the Eternal edict went forth that "in the sweat of thy face shall thou eat bread," labor has been a human necessity as well as a great moral duty. The man who complies with this law should be respected. He should be encouraged to feel that his position is not a menial one, for at last the world is dependent on him for bread and all the comforts of life.

Let every man be willing to work—to do something. Let no one be idle. It is the parent of vice, a foe to happiness. Our very natures require that we should be employed. Let it be in some useful and honorable way. No matter what our avocations, let us be industrious, let us be busy. No honest work is degrading.

To us the welfare of the masses and the interests of the State and Nation are paramount to every other consideration. We always have been and always expect to be a Republican, yielding to others the rights we assert for ourself, and in public matters advocating those measures we believe to promise the greatest good to the greatest number. Our political creed is plain and simple. We believe in the doctrine of *equal rights for all men*. No matter how humble or how poor the citizen, it is the duty of the Government to shelter and protect him. When it fails to do this it is no longer worthy the name.

The Democratic journals are not as jubilant as they were some weeks ago. Then they boasted that the Republican party was "drifting away" from the confidence of the people. Since then came the elections in Connecticut, Rhode Island and Wisconsin, and lo! the "drifting" is all the other way! Then followed the local elections in New York, Iowa, Indiana and elsewhere, and it *keeps* on "drifting" against the Democracy.

THE HOPE OF THE FUTURE IN THE REPUBLICAN PARTY.—If it could be destroyed, of which there is now no possibility, no better party could be organized in its stead, and those earnest reformers whose eager zeal cannot follow the slow but patient and steady movements of so mighty a body, may rest assured that the only hope of a progressive future is with the Republican party. Its strength is in the school houses, in the churches, the colleges, the workshops and trade marts of the land, and with the yeomanry who till the soil.—*The Philadelphia North American.*

An Excursion.

To the Editor of the North Carolinian:

"A little boat ride now and then
Is relished by the best of men."

I don't think that quotation is exactly correct but it has one beauty—it is true, and that naturally brings me to speak of our Excursion down the "classic" Pasquotank. Acting on the principle stated in the above couplet "we all," that is eighty-one souls—I think I am correct, there were eighty-one bodies at any rate by actual count, "with but a single thought," (I have reference to the souls now and mean that we were all intent on enjoying ourselves,) met at the wharf in E. City on Thursday last, bound for a pleasure trip on the steamer Thos. Jefferson. There were old men looking young, and young men with lips wreathed in smiles that were "childlike and bland," there were children as merry and happy as only children can be, and then there were the ladies, what shall I say of them? The title of that latest novel applies to all of them, "Fair as a rose was she." My pen is not elegant enough to do them justice, so I leave to the fertile imagination of your readers the task of portraying their charms—all were dressed in their best bibs and tuckers, while, if our provisions had been at hand when the five thousand were congregated in ancient times, there would have been no need of performing the miracle of the *loaves and fishes*. On account of our boat not coming in from Norfolk as soon as expected, we failed to get the early start intended, but all vexations have an end, and "watch pots" sometimes "boil" you know, and at length the floating namesake of the great defunct Statesman came up to the wharf with flying colors. Now if the "Thos. Jefferson" had been half as big as its name it would have been well enough, but we gazed sadly on the steamer and then on the crowd and wondered *which* would take the *other*, and when the question was settled by the steamer taking the crowd, and they were all safely stored away, I thought of the story of the man who built a Tannery, and for a sign stuck a calf's tail through a knothole in the building. The story says that the owner going out one day found a stranger gazing intently at the caudle appendage protruding through the aforesaid aperture, and when interrogated as to his business, &c., said he was a Philosopher, and that he had been there for an hour or more trying to find out how in the thunder that calf got through that knot-hole. The story isn't exactly parellel but will do. As I said before, we all got on board some how, I suppose on the principle of the animals getting into the Ark, or the faculty of always getting "one more" into an omnibus. We were somewhat crowded it is true, once in a while some one would step on our toes, which wasn't conducive to our comfort and happiness, and then sometimes owing to the crowd we had a tendency to suddenly sit down in some lady's lap, or we tried to put our arms around our wife, and found we had made a mistake and put it around somebody's else, all of which embarrassed us exceedingly. But all things have an end, the gang-plank was drawn in, lines cast off, the whistle blew an unearthly yell as in duty bound to do, and of course just at that particular moment, when a large number were congregated within three feet of the smoke-stack, set in a full band with drum parts and cymbals playing in our ears for the next quarter of an hour, and so we floated away down our beautiful river toward the Sound. And now came the best of it. Our band, we speak this with our mouth full, and with nothing but the words in it, for we have got a silver Cornet Band that is a credit to themselves and an honor to the place. Our ELIZABETH CITY Band who had kindly offered to furnish us with music struck up with some of their soul stirring melody, playing at intervals during the trip, and giving us so much enjoyment that we feel we are giving them by this notice, only poor returns for the great obligations we are under to them. Our return trip was by starlight, and as we neared this "ancient seaport town," everything as viewed by the dim light, had such a wan and ghastly look that one might imagine he was taking his final boat ride along with Capt. Charon across the dark waters of Acheron and Styx, and was nearing the other shore, but the Band struck up "la Belle Helene" and knowing that opera bouff wouldn't be exactly orthodox in that region, we came back to our real surroundings. Some one sings "Put me in my little bed" which reminded us of home comforts, and now having had a good sail and a good supper, and heard good music, and had a good time generally, (always excepting the crowd) we were ready to set our feet again on terra firma, the boat comes up to the wharf, we all reach the shore safely, say good night, and go home thinking that everything has gone off as merry as a dinner bell.

"ONE OF THEM."

E. CITY, N. C. April 18, 1871.

Taxes.

To the Editor of the North Carolinian:

ELIZABETH CITY, April 10, 1871.

So generally has been the complaint among the people of high taxes, that I have been induced to make some inquiry about the taxes levied and collected in Pasquotank County according to the list now in the hands of, and being collected by the Sheriff; and I give you the result of what I have been able to learn from the limited sources of information at my command.

My figures may not be exactly correct, but if they are not they are very nearly so, at least so near as to enable us to form an opinion.

I find the State Tax to be composed in part of the following items, viz:

Penitentiary Tax,	$ 927.32
Public School Tax,	927.32
Turnpike Tax,	54.93
Polls,	2248.00
The total State Tax amounts to	$ 5,591.25
Total Taxes for County purposes	14,346.28
Township School Tax, aggregate	5,428.84
	$25,166.37

This does not include Town or Corporation tax in Elizabeth City, nor does it include any of the Township taxes. I find that Elizabeth City Township has assessed a Township tax of 35 cents on the $100 valuation of property. I am not advised whether the other Townships have assessed any Township tax. Nor does the above amount include any of the taxes collected from Merchants, Retailers, Professions, &c., which form a heavy item and comes indirectly from the pockets of the people. Could we ascertain the full amount of Government taxes and add it to the amount paid for State, County and School purposes, we should be amazed at the amount. Is not this State, County and School tax an enormous amount for Pasquotank County?

The Poll collected and accounted for by the Sheriff is for

641 White Polls at $2	$1282.00
483 Black " " 2	966.00
Total Amt.	$2248.00

It is understood that the Constitution provides that one-fourth of the Poll tax may be used by the State, and the balance to be returned to the County for School and Poor purposes. If this be true then the amount to be returned to Pasquotank County would be $1636.00

I am informed the County Treasurer has only received from the Public Treasury about $700.00.

In calculating for the School Tax I do not include any amount for the Poll Tax, as I am not advised how that fund is disposed of.

The Township School Tax is as follows:

Salem Township	Amt.	$ 926.74
Nixonton "	"	1071.11
Mt. Hermon "	"	732.50
Elizabeth City "	"	1429.39
Providence "	"	314.91
Newland "	"	904.19
Total		5428.84

If the Schools be kept open for four months, and the Teacher's wages be $35.00 per month, each Teacher's amount would be $140.00

The Township School Tax will support in each Township, for four months, the following number of Schools, viz:

Salem,	6	Schools and leave over			86.74
Nixonton	7	"	"	"	91.11
Mt. Hermon	5	"	"	"	32.50
Eliz. City	10	"	"	"	79.39
Providence	2	"	"	"	94.91
Newland	6	"	"	"	64.19

Have the above number of schools been kept up for four months, in each Township, and have the Teachers been paid?

INQUIRER.

Congress.

On the 13th in the Senate, yesterdays debate on the Southern Outrages bill was resumed. Mr. Thurman, of Ohio, and Mr. Davis, of Kentucky, opposing, and Messrs. Boreman and Sumner supporting the measure. Mr. Sumner incurred the displeasure of the Democrats by his advocacy of this measure, and was accused of insensibility when the war power was to be conferred on the President against white Americans, although he had arraigned the Chief Magistrate for usurping the war power against the Haytians. Mr. Sumner asserted the right and duty of national protection, where the life, liberty, or property of the individual citizen were imperiled, "especially where, as in the case of the freedman, that citizen had been the friend of the Government." That fearful outrages had been perpetrated in the South could not be denied, and the power of Congress was ample. Nothing of "centralism" or "imperialism" could deter him. He was for the centralism of liberty and the imperialls of equal rights. Once the nation served Slavery in the interests of State rights; now it must serve liberty, even to the denial of State rights. The first amendments were adopted, and after an agreement that the evening session should be devoted to debate, and a vote be taken to-morrow, a recess till 7½ P. M. was taken. ——In the House Mr. Barnum, of Connecticut, appeared and took the oath The consideration of the Deficiency bill was resumed, the question being the Senate amendment to repeal the act fixing the 4th of March as the day for the opening of each new Congress. After debate the amendment was concurred in by 99 to 98. Without disposing of the bill the House adjourned.

On the 12th in the Senate Mr. Sherman's resolution in favor of a reduction of taxes was adopted. The debate on the Ku-Klux bill was then proceeded with, but no vote was reached.——In the House petitions were presented for the repeal of the Income tax, and a bill was introduced laying restrictions on the importation of laborers from China and other oriental countries. The consideration of the Deficiency bill was continued, and various amendments were disposed, of but the bill itself was not acted on. Before adjournment the Committees on Rules and on Public Buildings were announced.

On the 14th in the Senate, Mr. Howe, of Wisconsin, withdrew his harsh criticism of Mr. Sumner, during the San Domingo debate, that gentleman's declaration of Thursday having shown Mr. Howe they were undeserved. Mr. Sumner made an acknowledgment of Mr. Howe's *amende honorable*. The debate on the Southern Outrages bill was resumed, and at 4 P. M. the Senate proceeded to vote on the Judiciary Committee's amendments. Having disposed of these, the bill was passed by 25 to 19. Messrs. Hill, Robertson, Schurz Tipton and Trumbull voted with the Democrats in the negative.——In the House but little of interest.

On the 15th in the Senate the Amnesty bill was taken up but no final action taken.——In the House the Senate amendments to the Kuklux bill were then taken up and non-concurred in.

On the 17th in the Senate refused to recede its ku klux amendments by a vote of 17 to 30; and a committee of conference was ordered. Messrs. Edmunds, Sherman and Stevenson were appointed on the part of the Senate.——In the House the bill amending the revenue law, taxing dealers in leaf tobacco, failed by a vote of 48 to 79.

Europe.

From the papers of the 13th we learn that cannonading is still kept up about Paris but with no definite results. The Communist authorities announces that their losses have been light and those of the Government forces heavy in the recent fighting. Placards favoring conciliatory measures have been destroyed, and the women have been called upon to organize for the defense of Paris. There is a report that the Communists have lost the park of Issy, and that the Commander of Fort d'Issy has been shot by his own men—French prisoners are leaving Germany at the rate of 1,000 a day. Napoleon is ill at Chiselhurst.

From the papers of the 14th we learn that a delegation from the insurgents of Paris proceeded to Versailles on Wednesday, and were courteously received by M. Thiers. His reply to them was that they must lay down their arms unconditionally and then muncipally franchises will be granted to the city. The lives of insurgents will be spared, but the laboring people must return to their work. He anticipates a bloodless victory. M. Guizot sustains the Assembly and has express confidence that the struggle will be short and decisive. Nothing decisive had been effected by either army, and the Government was said to be waiting for reinforcements for the final assault.

From the papers of the 15th we learn that a harmless cannonade was kept up yesterday on the west and south of Paris. A Versailles telegram denies that Neuilly has been retaken by the insurgents, and a London dispatch says the Versailles troops have been repulsed everywhere about Paris. The Commune has forbidden the carrying of any but the red flag by the Nationals to open the gates of Paris to the besiegers for a consideration, was refused by the Government. The Commune Foreign Minister declares conciliation impossible. M. Thiers is willing to guaranteee the continuance of the Republic.

From the papers of the 17th nothing new

From the papers of the 18th we learn that heavy cannonading was going on at Paris and that the insurgents had repulsed the government troops. Paris is provisioned for three weeks. The sale of horseflesh has been resumed.

Ex-Congressman E. F. Dickinson, of Ohio, has just been elected Mayor of Fremont, in that State.

At Newbern, N. C., a disastrous fire occurred on the 12th on Middle-street, which destroyed seventeen houses, at an aggregate loss of $200,000.

Two hundred and ten thousand acres Agricultural College land scrip, donated by the United States to the State of Louisiana, has been sold by that State to G. F. Lewis, of Bleveland, for $182,000.

A terrible hail-storm has occurred in Mississippi, causing the destruction of thousands of windows, stripping foliage from trees and killing multitudes of birds.

James McCullough, James Kerr and James Murphy, convicted in Philadelphia of committing an outrage on a lady, were on Saturday sentenced to pay a fine of $1,000 each and suffer an imprisonment of fifteen years.

If you don't want to disgust everybody with your offensive breath cure your Catarrh. $500 reward is offered by the proprietor of Dr. Sage's Catarrh Remedy for a case he cannot cure. It is sold by druggists. Can get it for sixty cents by mail from Dr. R. V. Pierce, Buffalo, N. Y. Pamphlet free.

Thomas Hodges, a notorioes ruffian and horse-thief, who had mortally wounded a man near Stanton, Va., was taken from the jail, on the 7th by a mob, who hanged him a short distance out of town. None of the leaders were disguised, but were utter strangers to the Sheriff and jailer, who attempted to thwart their purposes.

THIS WEEK'S ADVERTISEMENTS.

We call attention to the following new advertisements in this issue.

New York advertisements.
Soda Water.
Court Notices.
Andes Insurance Company.
Druggists.
New Line.
Bankrupt Notice.

Local and Personal.

☞ WM. H. SMITH Esq., has gone North, to be absent a few weeks.

☞ Do not fail to read the new advertisements this week.

☞ The Fruit prospects were never better in this section.

☞ The Fisheries continue in full operation. Herrings are abundant but Shad are scarce.

☞ J. M. SITERSON Esq., of the Planters Hotel, Williamston N. C. will accept our thanks for special favors.

☞ Among the Northern arrivals since our last we notice E. WOLF and Mr. CRESSWELL from Lewisburg, Pa.

☞ The communication of "Inquirer" is worthy of consideration. It is a subject interesting every tax payer.

☞ An answer to several correspondents will be found by closely reading our advertising columns this week.

☞ Can a lover be called a suitor, when he *doesn't* suit her? Our Devil says, having tried it, he has been forced to a negative conclusion.

☞ On being asked "what Two Dollars will do," our Devil laconically replied: It will pay a years subscription to the NORTH CAROLINIAN. We appreciated that remark.

☞ The White & Griffin Mill, now owned and just repaired by D. SPENCER & Co., is doing excellent work. As a flouring Mill it has no superior in this country.

☞ We are not publishing a bitter partisan journal, nor one that is trying to "raise the wind" by being sensational. Hence the letter of "L" and "J. N. S." have been sent to the wrong shop.'

☞ The NORTH CAROLINIAN is not entirely a local paper. It circulates in other parts of the State and will, we trust, exert a salutary influence in shaping the public policy.

☞ There are frequent occurences in town and in the country that would be items of interest to the public if published, but as they are not reported to us they remain unknown. Send us all the local news.

☞ On Thursday evening last a number of our citizens, with their families, took an excursion on the "Thomas Jefferson" down the River. A correspondent describes it in another column.

☞ A contemporary insists that it is easier for a man to take hold of the seat of his breeches and throw himself over the moon, than to get to heaven after swindling the printer. It looks reasonable.

☞ In reply to a "Lady Reader" we would state that a few iron nails placed in the vase with flowers, will keep the water sweet and the flowers fresh. This arises from the sulphur eliminated from the plants combined with the iron.

☞ As this is the time to prepare for Spring and Summer trade our patrons will pardon us for indulging our advertising friends in intringing upon our reading columns for a few weeks. The great facilities of the NORTH CAROLINIAN as an advertising medium are being practically appreciated.

☞ In walking around the City it is gratifying to those having a taste for the beautiful to see the increasing number of Flower Gardens and a larger variety of flowers than greeted us one and two years ago. There is something refining and elevating in their cultivation. They make each home look so much more attractive and add to the cheerful and pleasant appearance of the town.

☞ Nothwithstanding our *repeated* announcement that we *will not* publish any communication sent us unaccompanied by the writer's name we have, since our last issue, received three anonymous articles for publication—one from Rose Dale, another from Baltimore and the other from the lower end of the county. Our rule—as unalterable as the laws of the Medes and Persians—make it impossible for us to gratify any of these parties. They ought, by this time, to know better than to expect it.

☞ A gentleman on renewing his subscription to the NORTH CAROLINIAN adds Four Dollars to pay for *two new subscribers*. He says:

"We are all Conservatives, but we admire your paper nevertheless. We feel that it has accomplished and is doing a great deal of good for our section and hence we believe it right to sustain it. Scarce an issue have I received that did not contain matter fully worth the price of the paper."

Another gentleman, on renewing his subscription, writes:

"I am taking eight papers, and though differing from you in politics, I frankly confess that I like the NORTH CAROLINIAN better than them all. It avoids offensive personalities and never degrades itself by indulging in the black-guardism so characteristic of political journals."

Such frankness and candor we appreciate. We have labored earnestly for what we believe to be the best interest of this country and people and we are glad to know that our efforts have not been in vain. We shall continue to strive to make the NORTH CAROLINIAN still worthy of the patronage it is receiving and acceptable to the honest intelligent public.

☞ Country and City trade can be best reached through the advertising columns of the NORTH CAROLINIAN.

☞ By the advertisement in this issue it will be seen that W. H. CLARK Esq., is the Agent for the Steamer "North Carolina," regularly making trips between this place and Baltimore.

☞ His Honor Judge POOL opened Court in Edenton on Monday, charged the Grand Jury and adjourned, at the request of the Attorneys many of whom were obliged to attend the Federal Court here, until Monday next.

☞ Anniversary celebration of Achoree Lodge No. 14, I. O. O. F., will take place at Clark's Hall on Wednesday, 26th inst, at 11 o'clock, A. M. There will be an oration by Rev. S. S. LAMBETH, Chaplain of the Lodge, and Music by the Band. The public generally are invited to attend and *especially* the ladies.

☞ We notice a number of strangers in the City attending the Federal Court now in session. Among them we see Hon. S. T. CARROW, U. S. Marshal, Hon. D. H. STARBUCK, U. S. District Attorney, Hon. WM. BARROW, Collector U. S. Internal Revenue; also a number of the members of the Bar from adjoining counties.

☞ The U. S. Revenue Steamer "E. A. Stevens," is now in our harbor and will remain a few days. We had the pleasure of a visit from the officers, Capt. JOHN CARSON, Lt. SAMUEL A. BROOKS and Engineer CHARLES H. BALL. Capt. CARSON is, like ourself, a native Pennsylvanian and very much of a gentleman.

☞ The regular term of the United States District Court began at this place on Monday, Hon GEO. W. BROOKS presiding. We had the pleasure of hearing his charge to the Grand Jury. It was clear, plain and practical. He not only explained the ditties of the Grand Jurors, but impressed upon them the dignity of their position and the importance of their faithfully observing the solemn obligations imposed upon them by their oaths. The most of the criminal cases were indictments for violation of the Revenue laws respecting distilled spirits and manufactured tobacco. Several of these were disposed of and others were continued till next term. The Court is still in session as we go to press.

☞ The Democracy of this place held a meeting in the Court House on Monday evening to nominate candidates for Mayor and Commissioners. The attendance was small and the deliberations not quite harmonious. Several very bitter speeches were made, evincing a determination to force a partisan canvas upon us. The Committee appointed to select a ticket made two reports, the majority in favor of FRANK VAUGHAN, Esq., for Mayor, and a minority report in favor of Mr. W. W. GRIFFIN. The former was adopted. For Commissioners, R. F. Overman, Zenaus Fearing, Capt. Joseph Lawrence, Capt. Tim Hunter and John Raper were nominated. Personally for all these gentlemen we have great respect, but it is unfortunate that their most active fuglemen indulge in such vituperative bitterness.

Andes Insurance Company.

The following correspondence speaks for itself. It will show the prudence and care of the Agents here in making themselves fully acquainted with the solvency and standing of the Company. See their card in another column. White & Brother were formerly residents of this county and are well known by most of our people.

ELIZABETH CITY, N. C., Mar. 14, 1871.

Mr. F. T. White of the Firm of Messrs. White, Brother & Co., Cincinnati, O.

DEAR SIR:—Your long residence and extensive commercial transaction, at Cincinnati we presume, have made you acquainted with the character of the officers, and the responsibility and standing of the "Andes Fire and Marine Insurance Company of Cincinnati O." We therefore respectfully request you will inform us of the character and business capacity of the officers and directors of the Company; its responsibility and in what estimation it is held by good business men of your City.

This request is made, not that we have any doubt of the fidelity and ability of the officers and directors or the responsibility of the company (for our confidence in company, officers &c., is unlimited) but to satisfy the public, whose confidence have become somewhat shaken in insurance companies by the failure of the Home Fire Insurance Co., of New Haven Conn.

Hoping you will oblige us with an early reply. We are Yours very truly,
BLACK & DASHIELL.

CINCINNATI, April 10th, 1871.

Messrs. Black & Dashiell, Elizabeth City N. C.,

GENTLEMEN:—We take great pleasure in very heartily recommending to our friends and citizens generally in North Carolina the Andes Insurance Co., as being one well and fully worthy of the most perfect confidence.

The Company is ably and judiciously managed with a large and increasing business and settlements are always prompt.

In short parties cannot do better than insure in the Andes.

Very truly Your Friends,
WHITE BROTHER & Co.,

Let no dealer go to Norfolk without calling on our friend A. E. JACOBS at the store of Lowenberg & Jacobs 35 Market Square. They will be well treated and supplied with Dry Goods, Clothing, Boots, Shoes and Notions as cheap as the cheapest. Go and see.

Mothers be Advised.

BEAR IN MIND.—When disease has undermined the health, and the physical system has become prostrated a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming. For all such maladies Hostetter's Stomach Bitters have been found unsurpassed. By acting directly upon the digestive organs, they remove the heavy, disagreeable feeling after eating, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing, and his general health improved. Thousands of persons certify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The generality of Bitters are so disagreeable to the taste that they are objectionable to a weak stomach. This is not the case with Hostetter's Bitters, which will be found mild and extremely pleasant. Balsamic healing barks and roots contribute their restorative juices to render it soothing and strengthening. Its bals is the only pure stimulant which has ever been produced, containing no fusel oil or any other deleterious element. The most careful and skilful chemists have analyzed the Bitters, and pronounce them harmless. This is scientific testimony; but the testimony of the hundreds of thousands who have experienced the preventive and curative effects of the *great vegetable tonic* and *alterative* of modern times is still more conclusive. In Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Chronic Complaints and general debility, it is as nearly infallible as any thing in this fallible world can be. 41-3t

MARRIAGE GUIDE.—Every one his own Doctor. A private instructor for married persons or those about to be married, both male and female, in everything concerning the physiology and relations of our sexual system, and the production and prevention of offspring, including all the new discoveries never before given in the English language. By Wm. Young, M.D. This is really a valuable and interesting work. It is written in plain language for the general reader, and is illustrated with numerous engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It discloses secrets that every one should be acquainted with; still it is a book that must be locked up and not left about the house. It will be sent to any address on receipt of 50 cts. Address Dr. Wm. Young, No. 416 Spruce Street above Fourth, Philadelphia. 19—6m.

A LECTURE. TO YOUNG MEN.

Just Published, in a sealed envelope Price six cents. A Lecture on the Nature, Treatment and Radical Cure of Spermatorrhœa, or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediment to Marriage generally; Nervousness, Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c.—By ROBERT J. CULVERWELL, M. D., Author of the "Green Book," &c.
The world-renouned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicines, and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. This Lecture will prove a boon to thousands and thousands.
Sent under seal, to any address, in a plain sealed envelope, on the receipt of six cents, or two postage stamps. Also Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,

Carbolic Acid and Poultry.

Of the many discoveries which science has given to the present age, no one article has so rapidly grown in public favor as carbolic acid—a product of the distillation of coal-tar for the production of naptha, benzole, &c. Its chemical properties are numerous; it is alike an antiseptic and disinfectant, and, too, whenever and wherever brought into contact with them, is certain death to all kinds of insects. It is a poison, but only moderately so to the human system; yet, from some peculiarity of its nature, is intensely destructive to insect life. And to this point in connection with poultry and poultry houses, we desire to direct the attention of our readers.

All amateurs and poultry breeders are but too well aware that parasites are the pests of poultry houses, more especially in towns where poultry are kept within confined limits. Without, as the owner thinks, any real cause, the fowls begin to droop and look sickly, and, after a while, one by one die off. He then becomes alarmed; examines them, and finds them covered with parasites; he looks into his fowl house and examines the cracks and chinks in the boards, and finds them filled with insects—living insects. He is astonished; he cannot account for it; and then the question arises in his mind: "How can I get rid of them?" Scores of times within the last few months has this question been asked of us, and our answer has invariably been, use carbolic acid. But how to use it is a matter of importance. There can be no doubt about its efficacy; but it becomes every one to exercise care in handling it. The acid is sold by all druggists in its crystalline and liquid form. In crystals it dissolves in 20 times its weight of water; that is, one ounce of the crystals requires 20 ounces of water to dissolve them. Thus dissolved, it is entirely too strong for any ordinary use. Dr. Emerson gives recipes for preparing this powder for disinfecting and other purpose. As a whitewash for walls, for protection against insects, bugs, &c, he says: "Put 3 ounces of carbolic acid into 12 quarts of lime-water or whitewash. Whitewash the walls of the poultry house well with this wash, and no living parasites will be seen—their death is inevitable. A weak solution may be made to wash fowls in—one part of the acid to sixty parts of warm water; let it cool, then dip the fowls in it until the feathers become thoroughly wet, and the solution reaches all parts of the body. Afterwards place the fowls on clean dry straw, where the sun will reach them, until they are dry.

Another form in which it is recommended to use it is as soap. These soaps are for sale by various manufacturers, and have a high reputation for cleansing animals and the cure of skin diseases. A mode of making this soap is as follows: Dissolve 8 pounds common bar soap in hot water, and 2 to 4 ounces of carbolic acid, according to the desired strength. Allow it to cool as usual in making hard soap. As these preparations may be bought ready prepared, and as carbolic acid is by no means a safe article to keep about the house, we would advise persons to buy rather than attempt to make them, except in the case of whitewash, when they must get the pure article and dilute it.—*Canadian Poultry Chronicle.*

Clover as a Shade.

There is probably no other plant in the world of such value to the farmer for this purpose. It furnishes the most perfect protection to the soil during the fierce drying heats of summer. Being a constantly deciduous plant, its leaves are perpetually falling, and soon form a delicate covering for the entire soil, sufficiently thick for shade, and easily penetrated at all points by the air, which is the great carrier to the worn out soil of those atmospheric elements that are to enrich it. In this way the clover plant not only contributes directly to the fertilizing of the soil, by giving its own substance to it, but it furnishes a protective covering to the entire ground, which encourages and stimulates those chemical processes by which the hungry and exhausted soil is recuperated from the vast supplies of nutriment that are held in the atmosphere. It becomes to the farmer the most valuable fertilizer in the world, as it imparts fertility to the entire soil.—*Southern Farmer.*

Age of Sheep.

The age of sheep may be known by examining their front teeth. They are eight in number, and appear during the first year all of small size. In the second year the two middle ones fall out, and their place is supplied by two new teeth, which are easily distinguished, being of larger size. In the third year, two other small teeth, one from each side, drop out, and are replaced by two large ones. In the fourth year, the large teeth are six in number, and only two small ones remain, one at each end of therange. In the fifth year, the remaining small teeth are large. In the sixth year, the whole begin to be worn, and in the seventh, sometimes sooner, fall out and are broken.

Remedy for Indigestion.

Half an onuce of ground Turkey rhubarb; one drachm of sulphate of quinine; one drachm of extract of sarsaparilla. Put the sarsaparilla into a cup with three or four teaspoonfuls of cold water; let it stand till dissolved; then add the other ingredients. Make it into a stiff paste; it will then be ready to make into pills with the use of a little flour. The whole costs but a small sum and makes nearly one hundred pills. The dose is two pills every other night.

How to Keep a Mustard Plaster Moist.—By adding a little syrup or molasses in mixing a mustard poultice it will keep soft and flexible, and not dry up and become hard and uncomfortable, as when mixed up with water alone. A thin paper or fine cloth should come between the plaster and skin. The strength of the plaster is varied by the addition of more or less flour.

The Lafayette (Ind.) *Journal* says that a lady of culture and spotless character, who arrived in that city a few days ago, then learned that her husband, who had been corresponding with her for several months, had not only procured a divorce from her, on the ground of abandonment, but had married her former housekeeper. Not being a subscriber to a small, obscure paper published in Grant County, wherein she was notified "of the pending suit, she had remained in entire ignorance of his rascality."

Senator Morton places the great issues of 1872 fairly before the public in his late speech in the Senate. Shall reconstruction be maintained? Shall Constitutional amendments be upheld. Shall colored people be protected in the enjoyment of equal rights? Shall Republicans in the South be protected in life, liberty and property? These, Senator Morton thinks, will be the great issues of 1872, beside which all others will sink into insignificance.

The Baltimore *American*, after a careful survey of the political field, asserts that Maryland will be carried by the Republicans in 1872.

ELIZABETH CITY, N. C.

In presenting my list of lands and other properties for sale, I would say that no section of the United States offers such inducements for capitalists and emigrants, as this section of North Carolina. In longevity and healthfulness, it will compare favorably with any where; and in easy and cheap transportation of products to market, in pleasantness of climate, in the sociability of the people, in great fertility, and durability of soil, no section can equal it.

A railroad will soon be built to Weldon, putting this place in direct communication by Rail, with the whole United States. This, together with our great fishing, farming and manufacturing interests, and certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A Steam Saw and Grist Mill in the town of Nixonton 8 miles from E. City. This Mill has a fine wharf and store attached on deep navigable water, the engine is 40 horse power, and all in good order. It is one of the finest locations to be found any where for custom work, and for getting good saw logs easily and cheaply. Price $4,000 cash.

Adjoining the mill property is 40 acres of fine land on the River, with three houses, all for $1200. Near the same is a good two story dwelling and 13 acres of land for $2,000, and a good one story dwelling, with one acre of land for $300.

Also two fine farms in Pasquotank county, 10 miles from E. City, within half mile of church, school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Also one other tract in Pasquotank county, containing 116 acres, within one mile of the town with fine buildings, mostly cleared and in cultivation. Price $25 per acre, one half cash, balance in 12 months.

A valuable site for a hotel at Nag's Head, 40 miles from Elizabeth City, and 50 miles from Edenton. This is situated immediately on the Ocean, and is a famous Summer resort for invalids, and those seeking health, comfort, and amusements during the summer months. It is in direct communication by steamboats and railroad with all parts of North Carolina, Virginia, and the North; and is equal in natural advantages to Newport, or Cape May. Visitors flock to this famous summer resort by hundreds and thousands, and a large amount of money can be made by a hotel. A charter has been obtained from the Legislature of N. C., for a joint stock company to build the hotel. There is now an old hotel on the spot, which could be cheaply repaired and bought for $3,000. This hotel, though imperfectly kept, cleared the proprietor last season, over $3,000. For a man or a company, having some capital, this is one of the finest chances to make money at hotel keeping to be found anywhere. The early attention of the public is invited to this property.

A fine steam saw and grist mill at Hertford, the county seat of Perquimans County, N. C., 18 miles from Elizabeth City. This mill has a fifty horse power engine, now in good running, two pairs of best French burr stones, and two upright saws. The house has a brick basement, and the building is large and in good order. There is one and a half acres of land belonging to this property, and a good two story dwelling, and other out-houses. The section of country adjacent abounds in the finest yellow pine, cypress, ash, poplar, and other valuable timber. This property originally cost $15,000, and is now offered at forced sale for the low price of $3,500, $7,00, cash, and the balance in six equal instalments, six months apart each with interest.

A fine farm and fishery in same county. The farm contains 400 acres of the finest land, lies immediately on Albemarle Sound where the water is 12 miles wide, and 18 to 20 feet deep, has got buildings, and fine neighborhood. The fishery is on the farm and goes with it. It has a new seine 2,500 yards long, and all the necessary boats, buildings, &c., (which cost over $15,000 two years ago.) The fishery alone, of a good season, will make from 5 to $10,000 profit to the owner. This property is offered at forced sale for the low price of $20,000, $7,000 cash, balance on easy times.

A store at South Mills, in Camden county, 20 miles from E. City, and 20 miles from Norfolk, lying on the canal where steamers pass daily. A fine chance for merchandize. Store is large with dwelling above containing six rooms, is in first rate order, has office, kitchen, dairy, and other necessary outhouses. Goods to the amt. of $50,000 per annum can be sold here, and at large profits. A splendid stand for a country retail store. Price $2,500—one third cash, balance in one and two years.

A valuable tract of land in Camden county, at South Mills, on the Dismal Swamp Canal, lying on the canal for two miles, containing over 900 acres of land—two-thirds cleared, and in a fine state of cultivation, with good buildings, &c.; balance in valuable timber. Price $12,000, one-third cash, balance in one and two years, interest from January, 1871. This is a valuable farm for corn, wheat, and vegetables, and being midway between Elizabeth City and Norfolk, and located where steamers pass by the door daily, is a desirable and cheap property.

A fine farm of 600 acres within six miles of E. City, one mile from navigable water, and the best cotton farm in the State. It is also well adapted to raising corn and wheat. This farm has a splended two-story dwelling upon it, large barn, 40 by 60 feet, a large number of outhouses, by splended trees and shrubbery, is in a strong Union neighborhood, and altogether the most desirable place in the county. A little over one-half of this land is cleared, and the balance is covered with the finest yellow pine, poplar, ash and other timber. Price $30 per acre—one-third cash, balance in one and two years with interest. Title reserved.

A valuable small farm ¼ of a mile from E. City, containing about 47 acres all cleared but about 6 acres, and in a good state of improvement. Lies high, well drained, medium buildings, a good well of water. A very desirable property. Price $50 per acre in payments. Possession given Jan'y. 1st 1871.

Sixteen houses and lots in Elizabeth City, with good dwellings, out-houses, &c. Prices and terms reasonable.

A valuable farm in Perquimans county, N. C. near navigable water. Has a fine dwelling-house with ten rooms, in splended order, with splended barns and stables—all in first rate order. The farm is very productive in corn, oats, wheat, cotton and clover. It is one of the finest farms in the State and is now in good cultivation, containg 585 acres of land, about three-fourths cleared and under cultivation. Price $10,000, one-third cash January 1, next, balance in two equal annual instalments with interest at the rate of six per cent.

A farm of 370 acres 8 miles from town by water, and 12 miles by land, is offered for sale for $10,000 in easy payments. This tract of land lies immediately on the River which is 4 miles wide and washes the farm its whole length on one side, and a branch of the River one mile wide, binds it on one end. The land is well adapted to raising corn, wheat, cotton, oats, peas, &c., lies high and dry, and is susceptible of the highest improvement. Fronting and looking over, as it does, two large sheets of navigable water, where steamers and sailing vessels are constantly passing, carrying freight and passengers to all parts of the country, its location and surroundings, are of the most fascinating and desirable character. There is a fishery on it ready for working a seine 2,500 yards long, and which commands a portion of both streams of water, and can be made immensely profitable. The price charged is low, and the purchase a very desirable one. The buildings consist of a good two-story dwelling and out-houses.

A tract of valuable land, containing 356 acres, with fine two story dwelling containing 9 rooms and cook-room. Servant's house with 3 rooms, large barns and stables, all necessary and convenient out-houses, 3 tenant-houses near town, and immediately on the River. About 100 acres of this land is in fine wood and timber, balance in a fine state of cultivation. It has 8,000 grape vines one year old, 3,500 peach, apple and dwarf pear trees, five acres in strawberries which yielded an immence profit this year, ten acres in Lawton and other rare varieties of black-berries, 15 to 20,000 young peach trees with other choice fruits too numerous to mention. This farm has a public road on one side, and the River on the other, where strangers come daily to the landings to receive the fruits and vegetables, and carry them down to Norfolk, Baltimore, Phila., or New York. The land is finely adapted to raising corn, wheat, cotton, oats, and all other field crops.

The owner of this farm offers to sell in tracts, to suit purchasers, say in 50 to 100 acre tracts, and at prices ranging from 35 to $80 per acre, according to location, buildings, &c.

There is also on this farm a fine fishery, where a seine 1,000 yards long, and 20 feet deep is hauled every Spring. Herring, Shad, Rockfish, Sturgeon and other valuable fish, are caught by thousands at every draw of the seine. And the profits are frequently large. This shery of itself is worth nearly as much as is harged for the whole property. The terms will be liberal. This is probably the finest opportunity offered any where for a profitable investment.

☞ Fishery has an office, and two houses for hands besides fish house. Then some 500 to 1,000 loads of best fish manure on hand, besides over 5,000 loads of compost made ready for use. This goes with the farm.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the buildings consist of a fair dwelling three stories high, containing eight rooms, all in good order, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

Another valuable tract of land in Pasquotank county one mile from the town, on the river, and containing 156 acres. Good dwelling house and other outbuildings. Land fine. About 120 acres cleared, balance in wood and timber. This farm is surrounded by parties from the North who have purchased all the land adjoining. Price $35,00 per acre, one half cash, balance in 12 and 18 months with interest.

TO THE PUBLIC.

The Land and Lumber Company having a large amount of Real Estate of their own to dispose of, and their business having increased to such an extent, they think it prudent to decline acting further as Commission Agents for the sale of lands belonging to others. They will however be glad at all times to furnish every facility to parties coming to Elizabeth City with a desire to look at the country and make purchases if they find it to their interest to do so.

The following list of property, owned by the Company, is offered for sale on the most reasonable terms. Their object now is to acquire a larger monied capital for the purpose of further developing their unimproved lands and carrying out their original design of increasing the Commerce and General Trade of Elizabeth City.

As there are others in the Commission Business, parties are referred to their advertisement for further information.

ELIZABETH CITY.

The following desirable list of Properties in Elizabeth City are offered at very reduced paices for cash or on time payments at rates which make any of them excellent investments for capitalists. We feel confident that this City is destined to become a large place and property will advance rapidly. Emigration is now tending Southernward and the feeling is in universal favor toward Elizabeth City.

A large two-story dwelling known as the Personage, with fine double Ptazza, front and back, large out kitchen, stables, carriage house, with 17 acres of ground well enclosed. This ground is all within the corporation of the City, and is well situated to lay out in building lots and make out of it ten fold the price asked for it.

A two-story dwelling containing ten rooms, 10,000 gallon cistern and all necessary out-houses, with large lot. Situated on Main Street. A Vacant Lot no better located and not so large as this was sold recently for $1600 cash.

A large brick store house and wharf situate on Water street; in E. City, comprising three lots with 400 feet of water front, permanently wharfed for the accommodation of large vessels. There is erected on these lots a large two-story brick building, 50 by 80 feet, well fitted up for a wholesale or retail trade at present occupied by the "Yankee Store."

A large wood store on west side of Water street 36 by 60, two stories high, being one of the best stands on Water street for merchandizing.

A House and Lot on Riverside Avenue. House 20ft front by 50 ft deep. Containing eight rooms with Pantry and Cellar, all well finished, modern style, and having all necessary out buildings. The lot contains a front of 400 ft, and would be a good location for a large shop or foundry as one whole side fronts on the water.

Also a large number of Wharf Lots, Mill Lots and Vacant Lots at very low prices, some of which are enumerated below. The Wharf Lots are 200ft deep and will be sold to any size desired along the River. Among them are some most eligible situations for Store Houses, Mills and Manufactories of any kind as there is a fine harbor immediately in front of them, having 30ft of water, sufficient for vessels of any capacity. Along Pennsylvania Avenue are offered some of the finest and choicest lots, for dwellings in town at prices varying according to location. This will be the finest street in town, is 80 feet wide, size of Lot 100ft front by 200ft deep. There are now a number of first class residences being erected on this street. Immediately in the vicinity of these Lots the Company have erected a large Planing Mill, Sash, Blind and Door Factory at a cost of near $20,000 and also their Saw Mill at a cost of near $15,000. That *now* is the proper time to invest in those Lots there can be no doubt, as they will double in value in a very short time. Lots not near so good as these, are now selling in other parts of the City at more than double the price asked for these.

VACANT LOTS.

Lots Nos. 150, 155, 158, 161, 163, 165, 167, 170. 172. 175, 178, 180, 182. 185, 187. 190 193, 195, 198 and 200, situate on Pennsylvania avenue, in the new extension of Elizabeth City, all choice lots, intended for the better class of residences. Size of lots 100 feet front by 200 feet deep. Price varying, according to location, from $100 to $1000.

TOWN LOTS.

Lots Nos. 250, 253, 255, 256, 258, 261, 263, 266, 267, 268, 271, 283, 285, 287, 288, 289, 291, 296, 299 and 300, situated on various Streets in the new extension of Elizabeth City, size of lots 50 feet front by 100 feet deep, at prices varying from $25 to $100.

MILL LOTS.

Four Mill-Lots situated on Knobb's Creek, so that logs can be taken from the creek to the mill. These lots have 200 feet each of water front, and over 600 feet deep to Mill street, and are choice sites. The purchaser will also have the right of storage for logs in the boom.

PASQUOTANK COUNTY.

The Land and Lumber Company also offer for sale, one thousand acres of their timbered land along the Main Road leading from Elizabeth City to Hertford and Edenton, Said land heavily wooded, soil very rich and about four miles from Elizabeth City. This land will be sold in lots to suit purchasers and at the low price of ten dollars per acre.

They also offer a tract of three thousand acres in Lots to suit purchasers, near the Pasquotank River, ten miles from Elizabeth City and three miles from South Mills. This land is heavily set with wood and also has upon it a vast amount of saw timber, and has a most excellent soil. This is a fine location for a small Colony. There is now a Public Road running directly through it. This tract is offered at the low price of eight dollars per acre if sold to one party, or at only a fraction more if divided into small lots.

The Company will also sell their farm of 250 acres two miles from Elizabeth City. 125 acres cleared and under good cultivation, well fenced, having upon it two dwelling houses, one new and the necessary out buildinos wanted on a farm, and will be sold on very reasonable terms.

Also another farm one mile from Elizabeth City containing one hundred acres, between thirty and forty acres cleared and under cultivation, the balance is now being cut off and is nearly ready to be cleared up and cultinated. This property is very desirable being so near the City though for reasons first given will be sold at a very low price.

We have a finely timbered tract of land situated on the Albemarle Sound twenty miles from Elizabeth City, containing 124 acres. Good timber land bordering on the water is valuable both for wood as well as saw timber as water transportation affords a good margin for wood, say one dollar per cord. This will also make good farm land—will be sold for one thousand dollars.

Also one other tract of land containing 154 acres situated immediately on the Pasquotank River ten miles from Elizabeth City, valuable for wood, and is excellent farming lands, would be sold, for six dollars per acre.

GATES COUNTY.

The Land & Lumber Company have a tract of 350 acres of timbered land one half mile from Chowan River and three miles from Winton the county seat of Hertford county. This body of land is well timbered and will be sold at the low price of three dollars per acre.

☞ The most direct and cheapest route is to go to Baltimore by N. C. R. R., thence Bay Line steamer to Norfolk, Va., then steamer to Elizabeth City, N. C.

HENRY T. HELMBOLD'S COMPOUND FLUID.

EXTRACT CATAWBA.

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver complaints, Jaundice, Bilious affections, Sick or Nervous Headache, Costiveness, etc. Purely Vegetable, containing no Mercury, Minerals or deleterious drugs.

H

These Pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the *finest ingredients.* After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, from the fact that sugar-coated Pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar-coated. Price Fifty Cents per Box.

E

HENRY T. HELMBOLD'S

H. T. Helmbold's Extract Buchu Cures Diseases Arising from Imprudence, Habits of Dissipation, Etc.,

in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons, and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the "Poison" has, by the use of "powerful astringents," been dried up in the system, to break out in a more agravated form, and perhaps after Marriage.

Use Helmbold's Extract Buchu for all affections and diseases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. Price One Dollar and Fifty Cents per Bottle.

Henry T. Helmbold's Improved Rose Wash

cannot be surpassed as a Face Wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, scorbutic dryness, inflammations of the cutaneous membrane, etc., dispels redness and incipient Inflammation, Hives, Rash, Moth Patches, dryness of Scalp or Skin, Frost Bites, and all purposes for which Salves or Ointments are used: restores the skin to a state of purity and softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principle claim to unbounded patronage, by possessing qualities which render it a Toilet Appendage of the most Superlative and Congenial character, combining in an elegant formula those prominent requisites, Safety and Efficacy—the invartable accompaniments of its use—as a Preservative and Refresher of the complexion. It is an excellent Lotion for diseases of a Syphilitic Nature, and as an injection for diseases of the Urinary Organs, arising from habits of dissipation, used in counection with the Extracts Buchu, Sarsaparilla, and Catawba Grape Pills, in such diseases as recommended, cannot be surpassed. Price One Dollar per bottle.
